

Declaration of consent for the use of images, audio and text material in schools

In everyday life at school, pupils get to produce images, audio and text material and/or might appear in such material in order to learn how to use media in a variety of different ways.

By signing below, we declare our consent that pictures and audio material showing our daughter/our son as well as texts and drawings of our daughter/our son may be published as part of school events and for school purposes (school newspaper, school bulletin, notices on the school premises, school website, reports in the local media, etc.).

Names will not be published on the internet and all pupil-related information is anonymised in such a way that largely exclude conclusions about the real life person. Pupils and guardians may view portrait photos of pupils, class photos and photo series of events only on password-protected websites.

This consent to the use of images, audio and text material of our daughter/son is valid until revoked, at the longest until our child leaves the primary school of the city of Schaffhausen.

Declaration of consent for the use of images, audio and text material in schools

- We agree that images, audio and textual material as described above may be used by the school with due care.
- We **do not agree** with this declaration of consent and do not wish to have images and audio material of our daughter/our son published in which our daughter/our son can be recognized. This extends to text material and drawings of our daughter/our son published for school purposes.
